Office of Legislative Counsel

Friday - 9 October 1959

1. Ed McCabe at the White House telephoned indicating he had received a letter from Senator Henry M. Jackson with what might be described as an interim report. He indicated that others had received this letter and report and I informed him we had also received it. McCabe indicated that most replies were noncommittal acknowledgments and I indicated we had done the same. He did state, however, that Gordon Gray added in his reply the point that he did not believe there was lack of coordination between Defense and State. McCabe requested that before we release the two studies which we are doing for the Jackson Subcommittee that the matter be discussed with Gordon Gray.

STAT

3. Mr. Sipes in the office of John W. Hanes of State Department telephoned asking if we had any material on an unclassified basis dealing with Communist training schools abroad and the use of passports to attend such schools. They wished to use this material to furnish to the American Bar Association which is considering a position on the passport legislation. Sipes is aware of the recent speeches by both Mr. Dulles and General Cabell.
